

Narendiran Chembu

Machine Learning Engineer (starting September 2020) | Amsterdam, The Netherlands

cgnarendiran@gmail.com

+31 6 499 75047

Education

- 2018-2020 **University of Amsterdam (UvA)** | The Netherlands
Master of Science in **Artificial Intelligence**
- GPA: 7.8/10 (core courses GPA: 9/10)
- 2013-2017 **Indian Institute of Technology Madras (IITM)** | India
(Engineering Institutes of India Rank 1, by Ministry of HRD since 2015)
Bachelor of Technology in **Mechanical Engineering** (with minor in **Industrial Engineering**)
- GPA: 8.78/4

Work Experience

- Nov' 2019
9 months **ZyLAB** (An e-discovery firm for legal and Govt. orgs) | The Netherlands
Machine Learning Research Intern (Thesis project)
- Determined the efficient loss-centric method in unsupervised domain-adaptation of a pre-trained transformer (BERT) for entity recognition; performance gain of 3.2 F1 score
- Contributed an extensively pre-processed Enron email dataset and annotation set valuable for retrieval and extraction testing purposes at ZyLAB
- Jun' 2019
2 months **CtCue** (An Information retrieval startup for the healthcare industry) | The Netherlands
Machine Learning Intern
- Built a generative autoencoder (s2s LSTM) tool for synthesizing Electronic Health Records resulting in 0 waiting-time of confidential data acquiring for testing query pipeline
- Created generic to specific tunable results through tempered softmax in the outputs
- Mar' 2019
3 months **UvA - Course: Image Processing, Bachelors AI** | The Netherlands
Teaching Assistant
- Assisted in programming assignment creation and evaluation in MATLAB
- Provided personal guidance with a facetime of 8 hrs/week for the students
- Aug' 2017
10 months **IITM - Embodied Cognition** | India
Project Associate (sponsored by the Defense Research Development Organisation, India)
- Solely fabricated the perception guided robot arm-grasping system on the MoveIt! stack of ROS as an atomic task and created a simulation env in Gazebo for algorithm (RL) testing

Projects

- Sep' 2016
11 months **Center For Innovation** (A student-run innovation organization in IITM) | India
Software Team, Abhiyaan (part of Institute robotics team; qualified 13th among 34 global teams in the Intelligent Ground Vehicle Competition - IGVC 2017, Michigan USA)
- Implemented the crucial navigation stack: localization through sensor fusion by Extended Kalman Filter (EKF), enabling obstacle-avoiding GPS waypoint navigation
- Designed and simulated the robot in Gazebo to test SLAM and lane-detection algorithms thus reducing manual testing times by 75%
- May' 2016
3 months **National Chemical Laboratory** (NCL Pune) | India
Research Internship (co-authored Journal paper published in Soft Matter - 2017)
- Simulated a Monte-Carlo Brownian dynamics to estimate the number of cubosomes (lipid nano-particles) adsorbed thus corroborating with experimental droplet retraction times

Volunteering and Awards

- **Avanti, NGO (Oct 2013- June 2014)**: Mentored 50+ underprivileged students at Jawahar Navodaya, Pondicherry (11th grade) focussed on cracking Joint Entrance Examination and on overall academic excellence
- Awarded the coveted **INSPIRE award** (Innovation in Science Pursuit for Inspired Research) consecutively for two years **2009 and 2010** by the Department of Science and Technology, India
